

# MEMO

**DATE:** August  
**TO:** Playas  
**FROM:** [Office of the league treasurer](#)  
**SUBJECT:** Season Payouts and new Joe Bag details

## Season IV Overall Payouts

1st \$575  
2nd \$375  
3rd \$275  
4th \$175

## Best Hand of the Year - \$100

The player that makes the best hand of the entire year will be awarded this \$100 prize. Important note: To qualify for this prize, you must use both (2) of your hole cards to make the hand.

## Joe Bag of Donuts Hand™ - \$100

Hands are dealt face up to each player (players do not have to be present) followed by the usual flop, turn and river. The weakest hand of each round is eliminated. The process is repeated until one man is left standing. The drama is unparalleled, the skill is non-existent.

## Lucky Average Minutes Per Tourney Bonus - \$50

Again, this draw will only be winnable by players not finishing in the top 4 positions. We will draw a number (or use [www.random.org](http://www.random.org)) from the lowest average minutes per tournament to the top minute average per tourney (so if the lowest average minutes was 108 minutes per tournament, and the top eligible player has an average tourney time of 218 minutes, for example, the draw would be from 108 - 218). The player closest to the drawn number will be the winner (in the case of a tie, we'll play high card for the drama!).

## Secret Total Point Bonus Draw - \$50

A number will be drawn from a hat. The numbers will range from 0 to the point total of the 5th place player (we may want to do 0, 5, 10, 15, etc. for speed's sake). The player with the complete season point total closest to the number drawn shall be declared the winner.

In the case of a tie (ex. the number drawn is 5 and one player has 8 points and the other player has 2 points) the player with the 'under' score will be the winner. If two players have the same score, they can split the winnings or play high card if they wish.

**Note: Only players who did not finish in the top 4 can get the Bonus money**

## New payout structure for each tournament

# of players entered	10	11	12	13	14	15	16	17
1st place	50	60	60	60	70	70	70	80
2nd place	30	30	40	40	40	50	50	50
3rd place	20	20	20	30	30	30	40	40
